**WORM: IT Infra Asset Monitoring Framework**

Welcome Center Co-ordinator!

Please take note that this software scans hardware-software details of your computers in LAN and uploads to central server for further verification as a part of your center's authorization process. Please take note of following points to avoid any problem.

1. All computers must be connected through local area network.
2. Direct Internet connection to server is required. In some cases, Proxy server/Firewall/Anti-virus settings/policies doesn't allow connectivity with centralized server. So, please make sure for necessary settings on your server.
3. This software automatically checks hardware configuration as per defined minimum criteria and restrict user from uploading details.
4. This software also checks duplicate computers and rejects automatic

A large, blue, cloud-like thought bubble is centered on a light green background. Inside the bubble, the words "Thank You" are written in a white, italicized, sans-serif font. At the bottom of the main bubble, there are three smaller, overlapping blue circles of decreasing size, suggesting a trail or a tail.

*Thank You*
